

# 595

The Terex Finlay 595 Hydratrak is a self contained high capacity mobile scalping unit. Designed and constructed to the highest specification, the 595 can withstand the toughest of applications from waste reclamation projects to quarry face and demolition environments, special features include a heavy duty twin deck vibrating grid, remote control movement and a tracked undercarriage.

## Features:

- ▶ Heavy duty aggressive scalping and screening double deck grid.
- ▶ Robust T-Bar cassette top deck and meshed bottom deck configuration for accurate screening of product material.
- ▶ Hydraulic folding main conveyor and grid raise allow for rapid set up and tear down times.

## Transport Dimensions

## Working Dimensions

Maximum Plant Capacity:	tph**	Stph**
	500	551

\*\*Material is based on pit run sand/gravel with bulk density 1/6T/cu.mm Screening capacity depends upon mesh sizes and relates to dry screening in optimal material conditions.

Machine Weight: 19,080Kg (42064lbs)\*
