

Innovation at Work

ROLL SIZER

RS1500

- The most efficient mobile mineral sizing solution available
- Huge reduction in fines creation levels
- Eliminates the need for an Impactor or Jaw Crusher
- Robust and durable design
- Massive application flexibility from Coal to Limestone
- Various options to suit any requirement
- Proven usage in Ports/Inland Terminals
- Variable speed twin shafts for accurate piece sizing

Innovation at Work

OPTIONS

- Dust covers
- Dust suppression
- Side conveyor for fines
- Reversible fan
- Overband magnet
- Hopper Flares (Manual/ Hydraulic)
- Punched plate on pre-screen

FEATURES

- Built with tracks for stability and easy manoeuvrability around site
- User friendly control system
- Hydraulic load sensing system
- Maintenance made easy with access platforms
- Heavy-duty design
- Low power consumption: 20-25 ltrs p/hr (5 - 6.5 US Gallons)
- Reversible shafts

APPLICATIONS

- Coal, lignite, bituminous, sub-bituminous
- Hard to handle materials - graphite electrodes to sticky materials
- Minerals
- Friable materials (incl. ash, boiler slag)
- Soft ores
- Limestone/ limes
- Salts
- Glass
- Fertilizer
- Recycled Concrete
- Tarmac
